SAFETY DATA SHEET

1 PRODUCT NAME:

Product Code:

Stegobium paniceum lure

BFL111

2 COMPOSITION:

The pheromone monitoring dispenser consist of minute quantities of the insect pheromones (stegobinone) impregnated into a controlled release medium which is a pharmaceutical grade of natural rubber

The dispensers attract the target stored product moths into the trap.

Pheromone dispensers represent a very low hazard and protective clothing is not required when Handling them.

3 HAZARD IDENTIFICATION:

- * Due to the low toxicity of the dispenser and pheromone, the product represents a very low hazard.
- * Care should be taken to ensure small children do not choke on the dispensers.

4 FIRST AID:

CONTACT WITH SKIN:

- * Wash hands thoroughly after handling dispensers. If irritation occurs and persists seek medical advice.

CONTACT WITH EYES:

- * If contact with eyes occurs, rinse immediately with copious amounts of water, seek medical advice if irritation occurs (S26).

INGESTION:

- * If ingestion occurs, seek medical advice.

SAFETY DATA SHEET

8.1 PERSONAL PROTECTION:

* As the product is composed of non-toxic components the necessary personal protection procedures are limited to normal personal and industrial hygiene practices.

8.2 EXPOSURE LIMITS:

* Not applicable – the product is composed of non-toxic ingredients, no exposure limits have been defined.

9 PHYSICAL AND CHEMICAL PROPERTIES:

* Specific gravity – 1.22 – 1.30

* Flashpoint - >100 °C

* High resilience.

10 STABILITY AND REACTIVITY:

* Stable under normal conditions.

11 TOXICOLOGICAL INFORMATION:

* There is no toxicological hazard associated with the lure.

12 ECOLOGICAL INFORMATION:

* Although no specific data exists, the product is composed of non-toxic components and ecological problems are unlikely.
